PROFILE

Operations and marketing professional working at the intersection of processes, data, technology and business. Experienced in organizing projects and workflows, tracking performance and connecting teams to turn strategy into clear execution. Background across technology, affiliate operations, real estate intelligence, automation and digital product launches.

EXPERIENCE

BETPASS

Business Operations | Administrative & Financial Operations | May 2024 - Present

- Manage administrative, financial and operational routines, including accounts payable and receivable, reconciliations, inflows, outflows and partner payouts.
- Build and maintain management reports, KPIs, dashboards and decision-support information.
- Map and document processes, create SOPs and internal controls, and track contracts, deadlines and recurring workflows.
- Develop automations with Google Sheets and Google Apps Script while coordinating with leaders, partners and cross-functional teams.

COI - CLUBE DE OPORTUNIDADES IMOBILIÁRIAS

Growth & Marketing Lead | Side Project | Mar 2026 - Present

- Lead brand positioning, content planning, acquisition campaigns and paid media initiatives on Meta Ads.
- Structure product messaging, sales materials, landing pages and customer discovery and qualification journeys.
- Analyze performance and apply market data to communication while connecting marketing, product, technology and operations.
- Support digital product launches and use AI for research, organization, content development, QA and workflow automation.

PLURIS MÍDIA

Junior Pharmaceutical Industry Technical Consultant | May 2023 - May 2024

- Reviewed technical reports and pharmaceutical documentation in a regulated environment, assessing completeness, consistency and seriousness.
- Worked with information in Portuguese and Spanish and translated and adapted cases into English.

SELECTED PROJECTS

COI product positioning and ecosystem - *Growth & Product Marketing*

Structured communication, acquisition and customer journeys for real estate intelligence solutions, including the Opportunity Map, LLB Score and property analysis services.

Operational structuring and automation - *Business Operations*

Mapped recurring workflows, documented processes and developed reports and lightweight automations to improve clarity and consistency.

Ainda - *Author-led project in development*

Concept development for an audiovisual project focused on preserving older adults' life stories through research, narrative design, interview preparation and production planning.
